TenTrade

The Corporate Brandbook

November 2025

Logotype

Color version for white and light backgrounds

TenTrade

Monochrome white version with semitransparent subline for black, dark and color backgrounds

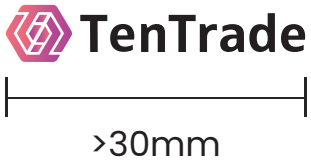

TenTrade

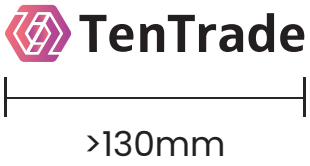

Logotype

When placing a logo on a layout, there should not be any significant elements around it directly below the logo and in the security zone. The width of the security zone for both the color and monochrome versions is the height of 'n' letter in TenTrade.

Minimum width of a printed logotype is 30 mm. Minimum width of a logo on web sites, applications and digital layouts is 100 pixels.
